Softwood Gate Price List December 2008

Information

All gates are constructed to a very high standard using Scandinavian softwood

The frame is 57mm thick and treated with a clear Protim preservative.

All joints are mortice and tenon fixed with hardwood dowels and glued.

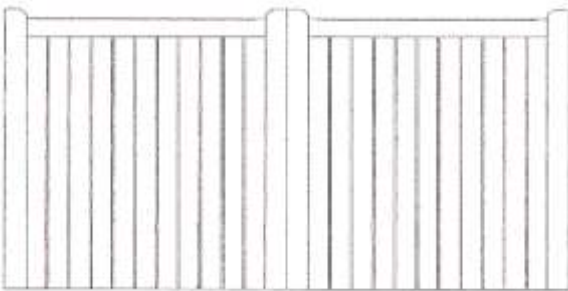

All tongue and groove products are constructed with expansion gaps between the boards, however we recommend a minimum of three coats of solvent or oil based woodstain to be used on these products.

In between sizes are charged at the next size up.

Over 1.8m High Pro-Rata 300mm Multiples Then If Over 3.6m Wide Pro-Rata 300mm Multiples

Manor (Tongue & Groove) - Ref MN01

Softwood Gate Price List December 2008

Information

All gates are constructed to a very high standard using scandinavian redwood Ex 45mm frame, and are made with mortice and tenon joints that are glued and dowelled. All TGV gates are Protim treated while remaining gate styles are green and brown ACQ pressure treated. However we strongly recommend a minimum of three coats of solvent or oil based woodstain to be used on any Tongue & Groove protim treated gates.

Softwood Gate Price List December 2008

INFORMATION

We wish to point out, that timber is a natural product and is prone to movement. We cannot be held responsible for shrinking, expansion and to a degree shaking of our products. However we take every avenue possible to minimise this.

TREATMENT

All our products are treated under pressure in either Green or Brown ACQ treatment or clear Protim treated. Any gates treated with Protim clear treatment must be coated with three coats of solvent or oil based woodstain (not water based). We are able to offer a staining of Sadolin Classic woodstain which can be obtained in various colours, but a further charge will be made, with prices upon request.

It is strongly advised that any gates which are constructed with tongue and groove boarding are clear Protim treated and finished with three coats of solvent or oil based wood stain.

We will not guarantee any tongue and groove products which are treated with ACQ.

TIMBER

All gates shown on the price list are manufactured from Scandinavian Redwood grade timbers (softwood). However, we are able to offer hardwood gates in Iroko, Sapele and Seasoned Oak, of which prices will be given upon request.

INSTALLATION

We offer a full installation service of all our products through our Approved Contractors Scheme with long serving sub contractors in order to maintain a high quality of service. Site surveys can be arranged where sound sensible advice will be offered.
